ALUMNI EDITION

ST. MICHAEL'S COLLEGE
TORONTO, CANADA, JUNE, 1955.

ALUMNI HISTORY IS MADE

The life of St. Michael's College Alumni Association has been relatively long but its history shows only a few short periods of conspicuous vitality. In the past few months, at the suggestion of the Executive of St. Michael's College ALUMNAE, meetings have been held to arrange a merger of the two alumni groups which have existed as separate organizations until this year.

The new organization, composed of both men and women graduates of the College and henceforth to be known as St. Michael's College Alumni Association, held elections in Car Hall, Sunday, April 17, 1955. Harold Murphy, '49, was elected President. The other members of the new Executive include: Vice-Presidents, Doreen Cullen, Bernice Hall '37, Vincent Reid '50; Treasurer, Mary Lou McGregor; Secretary, John McDonough '50. A Spiritual Director will be appointed by the Superior of the College.

To introduce this history-making change in Alumni affairs a faculty tea was held in April under the joint chairmanship of Adele Annette and John McDonough. About 175 alumni attended.

At its first meeting the Executive appointed a Constitution Committee which will draft a new constitution during the summer. It went on record as favoring a single money-raising social event during the year in lieu of membership fees, and it made tentative plans to arrange an alumni gathering in the fall.

Dr. Charles Kelley

Old friends of Dr. Charles Kelley, '16, will be sorry to hear of the death of an active and popular alumnus. Dr. Kelley was one of those men who maintained a close contact with a host of friends just as he kept in touch with the College and friends among the faculty over the years. May his soul rest in peace.

Pictured in Carr Hall at the Faculty Tea in April are Jerry Mathews, '49; Jack MacKenzie, '49; George MacLean, '49, and the newly-elected Alumni President, Harold Murphy, '49.

From left to right: Mrs. Madeline Fraser, Dr. Florence Quinlan and Angelo Melady, at the Faculty Tea.

EDITORIAL

This is the first issue of THE MIKE to be mailed to all of our Alumni, men and women. We are happy to publish it and the many who have written to us are most enthusiastic about it. About 200 of our members have generously contributed to the expenses of printing the paper during the past four years, and we are very grateful to them. However, we are trying to publish four issues each year at a cost of more than \$160 per issue, and so far the College has generously borne the largest part of the costs. It would be a happier solution, certainly, to have each member of the Alumni, more than 3,000, contribute a small amount annually to cover the printing costs. We hope, therefore, that if you like the idea of THE MIKE you will contribute at least a dollar a year to its support.

We have published a list of the graduates of 5T5 with the hope that it will assist in making the alumni of the various areas acquainted with the newcomers to our ranks. Many of them are going into further study but many more are now in the difficult position of trying to shape their future work; in some instances it may be possible for other alumni in an area, who are firmly established, to lend a guiding or helping hand to the new members of our Alumni family.

THE MIKE, on behalf of all the Alumni, extends congratulations and best wishes to our newly-ordained Alumni priests: Father Richard Bussey, Father John Markle, Father Patrick McGovern, in the Archdiocese of Toronto; Father Adam Smalley, in the Diocese of Syracuse; Father Thomas (John) McDonough, of the Dominican Fathers in Canada; Father Regis (William) Ryan, of the Dominican Fathers in the U.S.A.; Father Alex. Macrae, of the Oblates of Mary Immaculate in Ottawa, and Father Philip Berrigan, S.S.J., in Washington, D.C.

Reed Trophy Again

St. Michael's athletes captured the Reed Trophy this spring after a "photo" finish with S.P.S. Finalists in five major sports including the third consecutive defeat in Mulock Finals, the College boys had to wait until the Sifton finals before winning their first championship of the year, but they had amassed sufficient points during the year to enable them to edge Skule by 19 points to win the Reed Trophy for the first time in five years.

NEWS (Cont.)

The Alumni colony in Europe is steadily increasing. Most recent additions are: George Kovatch, '54, Dave Winters, '54, Nancy Walsh; Marianne Korman will be joining Nancy during the summer; Dr. Claude and Joan (Garvey) MacDonald will be leaving for England in September; Father Hugh Mallon is spending the summer in Europe and the British Isles; Father Armand Maurer, recipient of a Guggenheim Scholarship last fall, is also studying in Europe.

Paul Kavanagh, who received his Doctorate in Geology at Princeton in 1954, is now married and living on the island of Cyprus. He reports that the mines where he is now working were mined for the first time about 2,300 years before Christ: they calculate that the Romans mined 1,000,000 tons of copper from one of the mines his company is still working. The fence around Paul's home is built on a base of Roman slag.
